

Distributed Audio

Metreau Audio Keypads

When it comes to stylish, sophisticated control of AMX Distributed Audio Systems, look no further than Metreau Audio Keypads. Their cost-effective design, with the ability to be installed in any Décora®-style wallplate offers many installation options and they come in two configurations to suit a variety of unique applications. Whether they are used in residences, condos and hotels or in restaurants, stores or other retail environments; cool looks, powerful features and flexible capabilities make Metreau Audio an undeniable keypad choice.

COST-EFFECTIVE INSTALLATION OPTIONS

Metreau Audio Keypads are suited for installation within other decora-style wallplates that can include additional keypad controls. This makes Metreau a cost-effective option for outfitting every room and zone.

FLEXIBLE CONFIGURATIONS

Metreau Keypads are available in 6-button source and 13-button numeric configurations. The 6-button source model gives you the ability to directly select from any of six audio sources – CD, IPOD, Satellite Radio, AM/FM – whatever you want to listen to. It also includes an integrated navigation wheel and a volume/lighting level feedback window. The 13-button numeric keypad provides a direct entry portal for track numbers, radio presets and other numeric device functions.

- Control up to 6 sources
- Bass, treble and balance control
- Zone grouping
- Color options include: black, white and light almond
- Blue LEDs in the top center of each source/function button illuminate when pressed to confirm that the source / function was selected and that it is currently being used
- The 6-button Keypad's integrated navigation wheel includes simple up/down volume level adjustments, or sophisticated left/right, top/bottom, and select control buttons.
- The volume level feedback window displays a row of small blue LEDs that provide visual feedback as you adjust volume up or down

DAS-MET-6SRC (FG1122-01)
DAS-MET-NUM (FG1122-02)

PRELIMINARY SPECS - SUBJECT TO CHANGE

12V CURRENT DRAW
