

Keypads

Metreau Keypads

When it comes to stylish, sophisticated control of NetLinx Control Systems, look no further than Metreau Keypads. Their cost-effective design, with the ability to be installed in any Décora®-style wallplate offers many installation options and they come in three configurations to suit a variety of unique applications. Whether they are used in residences, condos and hotels or classrooms, meeting rooms or presentation facilities; cool looks, powerful features and flexible capabilities make Metreau an undeniable keypad choice.

COST-EFFECTIVE INSTALLATION OPTIONS

Metreau Keypads are suited for installation within other decora-style wallplates that can include additional keypad controls. This makes Metreau a cost-effective option for outfitting every room and zone.

FLEXIBLE CONFIGURATIONS

Metreau Keypads are available in 6-button navigation and 7-button and 13-button configurations. The 6-button navigation model gives you the ability to directly select and control any device in the system. It also includes an integrated navigation wheel and a lighting level feedback window.

- Available in black, white and light almond
- 6-button keypad includes navigation wheel for simplified navigation and control
- 7- and 13-button configurations offer flexibility for individual or grouped keypad configurations
- Blue LEDs light up when buttons are pressed and provide visual volume level feedback in IR window
- Offers an extremely cost-effective control package for any room: bedroom, meeting room, classroom or government facility
- Utilizes field replaceable, pre-printed buttons
- Conveniently matches the styling and look of the new NI-3101 Signature Series NetLinx Integrated Controller for a unified presence within any residential or commercial setting
